Why?

A platform for future growth

A Euronext Amsterdam listing is expected to attract incremental tech investor capital which is well-aligned to our growth ambitions.

Taking action to address market dynamics

We believe the new listing will also help to reduce Naspers' outsized weighting on the JSE which has been caused by the group's rapid growth.

Maximising returns over the long term

We believe that opening up investment to a broader category of investors while reducing our JSE weighting will help to maximise shareholder value over time.
